--- 1/13th Pound -"Series of 1942" - 152 x 15 mm. ---

Due to wartime restrictions on packaging of sizes smaller than 1/12th pounds, there was no *4¢ - EXCISE / TAX* surcharged 1/13th pound "Series of 1942" strip issued under the Budget of March 1943. After mid-1947, when the printing of the excise tax was no longer mandated the *unsurcharged* 1/13th pound imperforate strip **RP-1767** was used.

--- Note: this apparently was the final control number in the 1/13th pound "Series of 1942" Type I sequence ---

The control numbers on the 1/13th pound strip have run through the introductory and lettered alphabetic sequences from **0000001** to **B9999999**, and have continued to **C0408121** - so at this point the 1/13th pound total is 30,408,121.

Note: the introductory numbers, and each subsequent alphabetic letter sequence, cover 10,000,000 strips

--- RP-1801 - with a Type II "Coat-of-Arms" - *imperforate* - with *hollow red* denominations ---

Lee Brandom in the "Supplement" has very badly confused the listing of the Type I Coat-of-Arms and the Type II Coat-of-Arms as regards the use of the ***hollow red*** and the ***solid red*** denominations, so I have simply added the suffix "**A**" to his catalogue numbers to denote this Type II strip with ***hollow red*** denominations. It appears that the control numbers are a continuation of the Type I control sequence.

Apparently this was the final use of the 1/13th pound strip. The collection ***does not contain*** a Type II copy with solid red, or with black denomination figures.
